EDUCATION

Ingolstadt University of Applied Sciences

Oct 2025 - Mar 2027

Master of Science in User Experience Design

Munich University of Applied Sciences

Oct 2021 - Sep 2025

Bachelor of Science in Informatics and Design | Grade: 1,7 (German Grading System)

WORK EXPERIENCE

BMW AG

Mar 2025 - Sep 2025

Bachelor Thesis: Requirements-driven Evaluation of Modern Design-to-Code Tools

- Conducted systematic benchmarking of design-to-code solutions and supported the Proof-of-Concept phase by providing relevant design artifacts
- Designed and executed a company-wide developer survey to identify pain points and quantify time-efficiency gains compared to manual UI coding
- Developed a strategic business case based on structured literature review and stakeholder requirements to guide the tool adoption decision

BMW AG

Aug 2023 - Jan 2024 | Mar 2024 - Dec 2024

Intern and Working Student: UX/UI Design and Web Development for NLP/AI based Applications

- Co-developed frontend components for NLP/AI-based applications using Angular and Java, translating complex logic into user-friendly interfaces
- Managed requirements engineering by gathering customer needs and translating them into User Stories and Epics for the development team
- Owned the end-to-end design process: created high-fidelity prototypes and implemented functionality concepts in coordination with internal departments
- Collaborated on international projects to develop practical AI use cases for vehicle development and quality management

Acquired Skills: React, Angular, TypeScript, Java, Confluence, BitBucket, Git, Figma, Docker

Check24 Autoteile GmbH

Feb 2023 - Jul 2023

Working student in product management

- Supported the innovative product development lifecycle, from initial conception to the implementation of new Chatbot features
- Designed and tested new features for native apps (iOS and Android), ensuring consistent UX across platforms
- Took ownership of independent projects, coordinating directly with Product Management, IT, and Management to ensure timely delivery
- Conducted quality assurance and testing during the implementation phase to ensure high-quality releases

Acquired Skills: JIRA, Confluence, UXPin, Slack, Scrum, Agile, JSON

ADDITIONAL SKILLS

Technologies: Python, React Native, JavaScript, HTML5, CSS3, Node.js, MongoDB, Adobe Xd, MS Office, Voiceflow, Unreal Engine, Unity

Methodologies: Human-Centered Design (ISO 9241-210), Double Diamond, Agile/Scrum, User Research, VUI Design, Speculative Design

Languages: German (native), Turkish (native), English (B2+) and Spanish (A1)

Interests: Photography, Travelling and Reading
